

PSLE Science Final Sprint

Math Arena will be conducting PSLE Maths Final Sprint for Primary 6 students who will be sitting for the PSLE Science paper on 4th Oct 2022.

What's the focus?

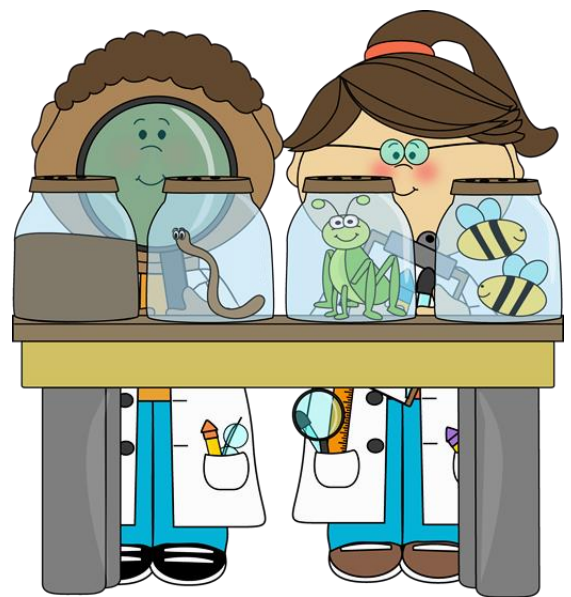

- ✓ Application questions
- ✓ Challenging structured questions
- ✓ Answering techniques & analysis
- ✓ Clarification of common misconceptions

Who should attend?

P6 students who would like to improve on their **Booklet B** performance.

How is the course conducted?

- This program is designed with the intention to give students a final boost of science problem solving skills by attempting challenging science questions that require stable fundamentals of overlapping scientific concepts. Questions will place strong emphasis on the **common misconceptions** that most students will have.
- Recent PSLE science trend suggests that there is an increased emphasis on questions pertaining to **application and experiment scenarios**. Students can expect to face many such questions. Students will also be reassessed on their ability to **brainstorm relevant key words**, providing them with a better understanding of delivering an answer that yields the maximum credit possible.

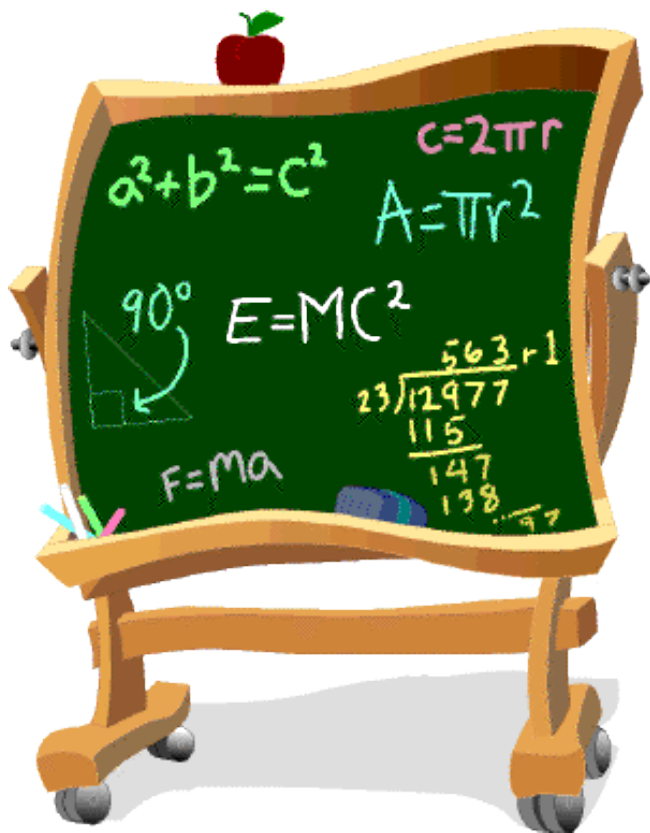

Day/Date	Time	Fee (2 sessions)
Saturday, Oct 1 & Monday, Oct 3	(Sat) 4:00 pm to 6:30 pm* (Mon) 2:30 pm to 5:00 pm*	\$180

*Updated on: 2022, Sep 9
